The corner seat frame (MODEL NO: M) is equipped with the sofa leg.

Connect the seat frame

Your sofa is modular

This isn't the final shape. It's just where you started.

Every module in this collection — seats, corners, chaises, ottomans, and more — is sold individually. As your space or your family changes, you can add a piece rather than replace the whole sofa.

Module-Pair of Arms

Module-Seat

Module-Corner Seat

Module-Ottoman

Every module shown above belongs to the same collection your sofa is from, and connects with the same bracket system — **mix, add, or replace any piece,** whichever configuration you started with. Match your fabric and color below before you shop, so any piece you add blends in seamlessly.
