

Soforia Modular Sleeper Sofa

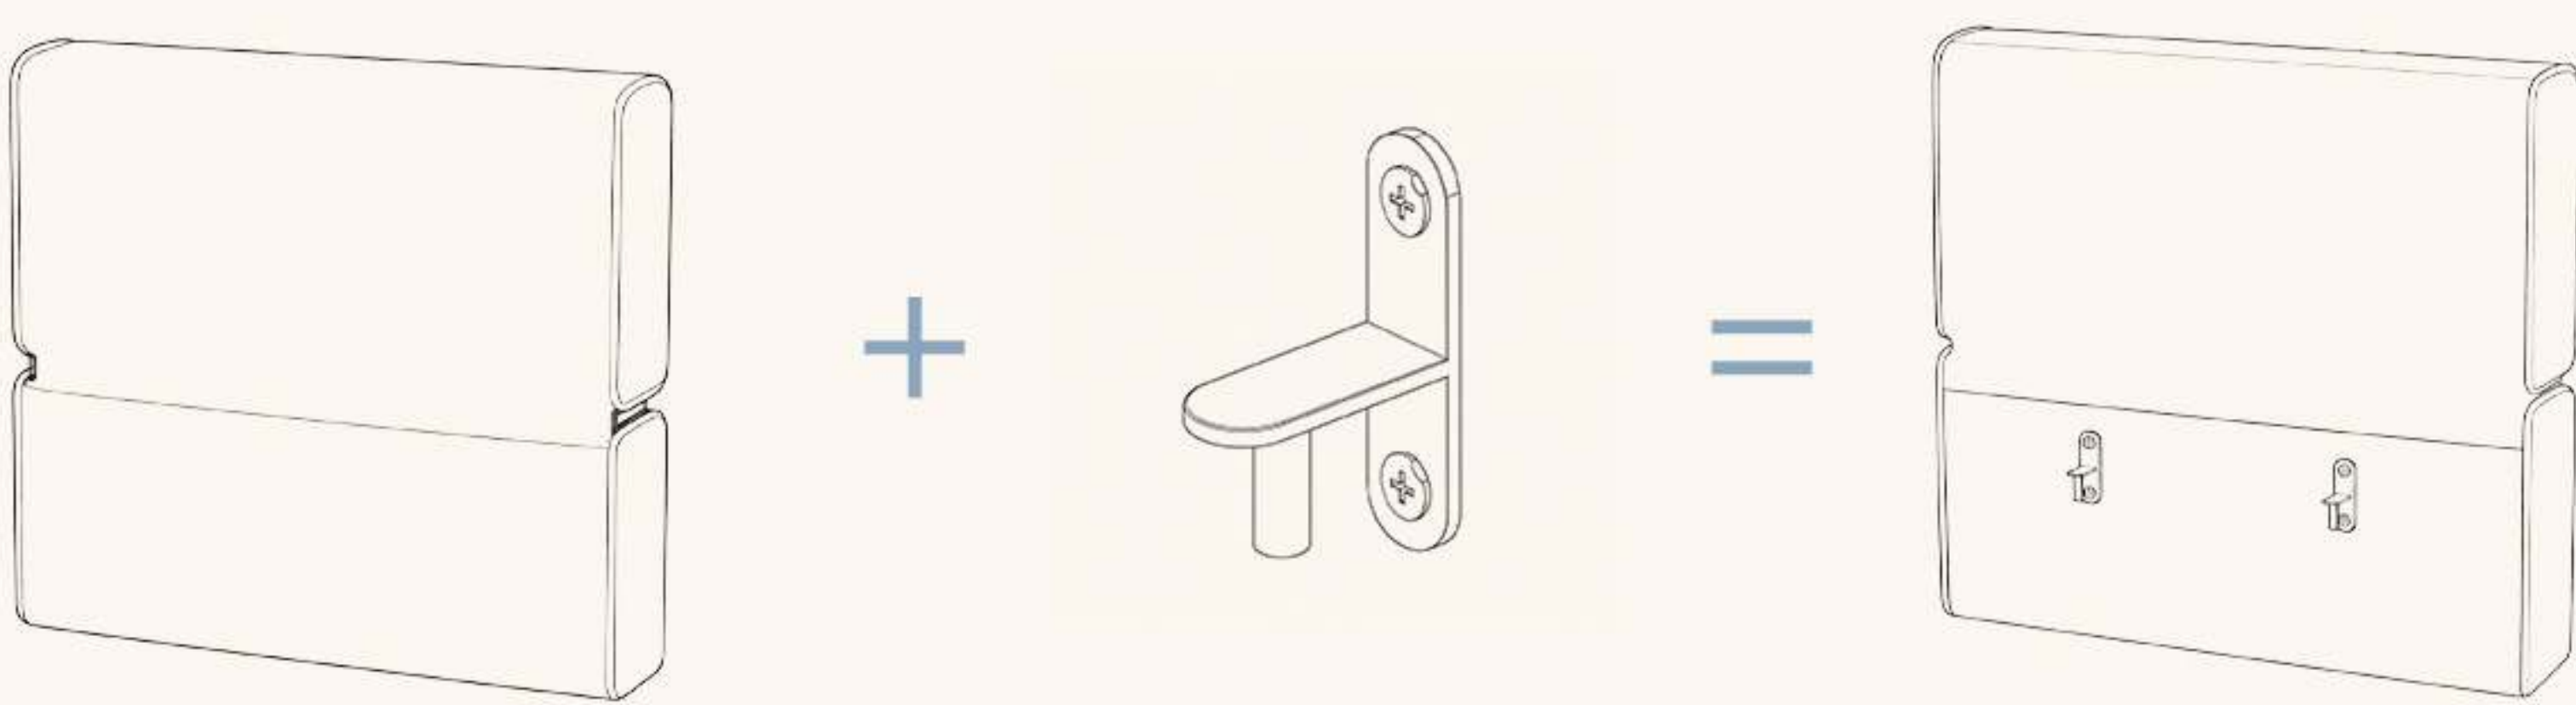

BELFFIN SOFA

Accessory Installation

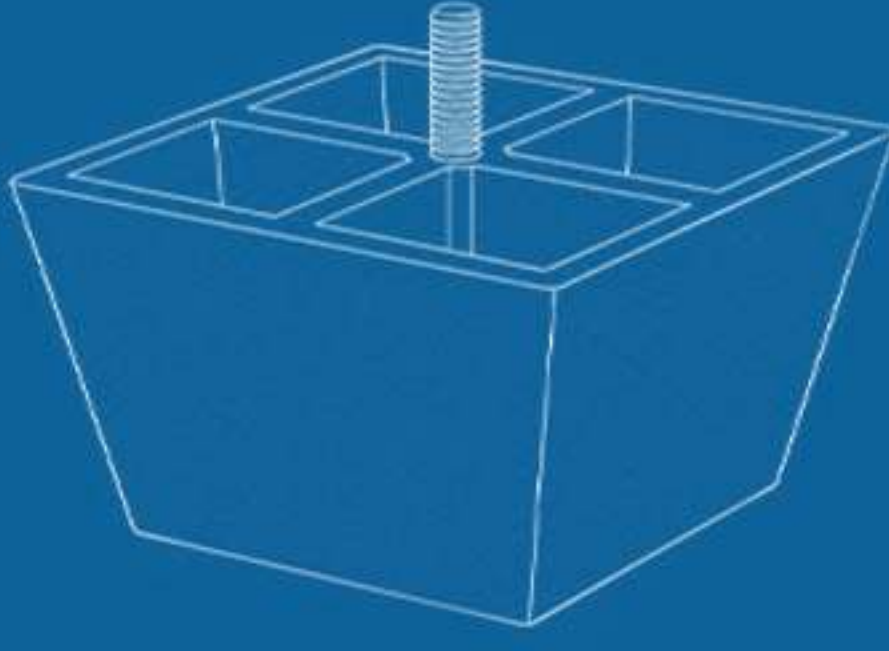

Seat connection system

Backrest/Armrest connection system

Legs

Plastic Washer

Link of accessories

The seat frame is equipped with the sofa leg.

Connect the seat frame

Your sofa is modular

This isn't the final shape.
It's just where you started.

Every module in this collection — armrests, seats, ottomans, and more — is sold individually. As your space or your family changes, you can add a piece rather than replace the whole sofa.

Module-Pair of Arms

Module-Ottoman

Module-Seat

Every module shown above belongs to the same collection your sofa is from, and connects with the same bracket system — **mix, add, or replace any piece**, whichever configuration you started with. Match your fabric and color below before you shop, so any piece you add blends in seamlessly.
